

# praise for buzz guard

Customers share how Buzz Guard improves comfort during outdoor activities, in a variety of settings, from woodlands to wetlands, any time of day or night, without harsh chemicals. Visit [earthheartinc.com](http://earthheartinc.com) for more information.

"We were able to enjoy an entire summer evening outdoors after using Buzz Guard. It was euphoric to be outdoors with no problems!"

– Lisa Smith-Putnam, host, *Your Pets My Dogs*

"Schooner and Skipper are Vizslas, and they love to be outside. We have a boat on Lake Michigan, and the dogs love to go to the beach and for boat rides. Some days all we did was swat flies, and it was not much fun until we got Earth Heart's Buzz Guard. It is amazing how well it works! The best way to explain

Thank You Earth Heart for making Buzz Guard to keep the bugs off us.

how it works is that the bugs just keep on buzzing right past them. Buzz Guard is the greatest natural product for keeping the bugs off

my dogs. I can play, sit and relax with my dogs outdoors because the bugs don't bother them at all. When the dogs sit by me I am not bothered by the bugs either. I think it helps keep the mosquitoes away too. I keep one bottle in the boating bag and one at home so I never have to worry about being without it."

– Sharon Gilbert, South Bend, IN

"Buzz Guard brought us much needed relief in the weeks after Irene. It was much more effective than anything I had tried in the past and I especially liked that I could use it on both myself and my furbabies. It also smells great! I am sure you will be pleasantly surprised that something that is safe and natural works so well!"

– Dorothy Baxter, Glenwood, NJ

"Augie Dogie and I give four paws up for Buzz Guard, which is especially helpful in southwest Florida at sundown. The scent is very fresh, and because the product isn't oily, it feels clean and light. The spray penetrates Augie's fur with no problem at all."

– Nancy Okun & Augie Dogie, Lake Suzy, FL

"Our Syracuse Obedience Training Club members really like the Earth Heart products. Buzz Guard was by far the favorite. We used it on our dogs, on ourselves, and I even applied it to my horse's face. I swear by Buzz Guard."

– Deb Eldredge, DVM, award-winning author, and dog sport competitor

"Oso, who hates any kind of spray, let me spray him with Buzz Guard. We are having more fun outdoors thanks to Buzz Guard."

– Marla Ballentine, Auburn, WA

“No more harsh chemicals thanks to Buzz Guard.”  
– Carol Bryant,  
*Fidose of Reality*

“My dog Lucky and I love Buzz Guard. It smells good and has been effective when vacationing in Florida.”  
– Dr. Meg Jorgensen  
*Sleepy Hollow, IL*

“Buzz Guard is safe for both humans and dogs, and you can spray directly onto clothing, skin or fur. I tried Buzz Guard on Kelly and was pleased to find that a light spritzing wasn't heavy or messy.”  
– Peggy Frezon, Rensselaer NY

“While our dog doesn't like the heat, he does enjoy being outdoors for short periods of time. Now, with Buzz Guard, he can enjoy more time playing and less time scratching.”

– Eric Worley, Indiana

“All of the Buzz Guard samples were field-tested by my training clients, veterinarians and customers. My students used it on their dogs at class. I didn't bring mine because I don't bring a dog when I teach. Guess who was the only one who got bothered?”

– Nina Pregont, Natural Expressions, Dundee, IL

“We use Buzz Guard not only on the dog and horses but on ourselves because it's not greasy.”  
– Barb Bruns, Hampshire, IL

“I use Buzz Guard on all three of my girls simply because I feel good knowing I have a quality product that is all-natural, and there is a floral, woody aroma that is pleasant.”

– Doreen Disbro, *Doggies and Stuff*

“Buzz Guard ingredients are safe for both Sugar and me. We love taking walks now, even in the Forest Preserve.”

– Rosalyn and Sugar, Wilmette, IL
