

## praise for travel calm

Customers share how Travel Calm natural remedy mist has calmed their travel shy dogs during all forms of travel, giving relief for upset tummies, and other signs of travel sickness.

Visit [earthheartinc.com](http://earthheartinc.com) for more information.

I used the Travel Calm on a 4 hour car ride. Sinjun didn't stand up in the car for the whole trip which was great since it enabled

me to use my rear view mirror for a change. It seems to have changed his car behavior. He no longer drools and vomits."

– Heather Lenz, Toronto, Ontario

"Our most talented narcotics dog, Brew, was terrified of vehicles – he would throw up at the site of one. When they talked about retiring him, I reached out to Earth Heart and tried Travel Calm. We made progress quickly – he was able to work without throwing up on short car rides. We are excited that he has come so far so quickly!

– Kris Kinnimonth, Einstein K-9 Inc., Illinois

"I use Earth Heart's Travel Calm when we go to obedience classes. In addition to helping with the car sickness, they are much better focused at class. Although they still occasionally get sick, I would say that it helps about 80% of the time and with continued use I feel that it will eventually allow them

to enjoy riding in the car for longer distances! We are working toward longer rides, but to be able to drive almost 30 minutes without incident when before even a 5 minute

ride would mean a major cleanup is nothing short of a miracle."

– Dorothy Baxter, Glenwood, NJ

"Millie, my oldest dog, is afraid of car rides. We travel in my car every day, and Travel Calm helps her anxiety. Travel Calm has helped keep Millie's stress

level to a manageable comfort zone. I do not like sedating my dogs, seeing them groggy and confused. I would much rather help them overcome their fear with natural products like Travel Calm."

– Doreen Disbro, blogger, Doggies and Stuff

"Travel Calm keeps our pups all relaxed for our ride to and from Wisconsin. Love the stuff!"

– Linda Meitz, Pedigree Junction Dog & Cat Spa, IL

"The Travel Calm is wonderful! My greyhounds pretty much sleep the entire way. It doesn't cause

sleepiness, just calms them so they are not anxious and jittery. They don't get sick on trips either."

– Darlene Lawrence, Florida

“Sophist A Cut Pet Spa strives to provide the most relaxing atmosphere possible at the spa using music mixed with nature sounds and limiting the

amount of dogs that I groom per day. Upon arrival, all dogs receive an aromatherapy treatment using Travel Calm, which has made an amazing difference in all of the dogs that I groom – it seems to help the dogs control their emotions and reduce their level of stress. Many owners have noticed the positive difference in their dogs. I use Travel Calm since the dogs are being transported to and from the grooming spa. And I personally love the smell of the added ginger! All groomers should care enough about their clients to give them an aromatherapy treatment using Earth Heart Travel Calm!”

– Dawn Meisner, *Sophist A Cut Pet Spa*  
Regina, Saskatchewan

“It can't be this easy!?! I used Travel Calm to stop my Miniature Long Haired Dachshund from vomiting in the car. I simply sprayed it on her dog seat. It's a miracle. No vomiting! Just a happy dog that wants to go for car drives now! Car sickness is no longer a problem!”

– Ann Morrison, *Halifax, Nova Scotia*

“I couldn't have made the five-day cross country trip from Florida to California without Travel Calm. It worked like a charm for my two old dogs, Charlie and Susie.”

– Albert DiFiore, *Los Angeles*

“Our dogs have a variety of travel issues. Spike occasionally vomits and Roxi pants so hard sometimes I'm scared she's going to pass out or collapse her trachea. I sprayed Travel Calm inside the car before we left, then rubbed some on their ears and tummies and off we went. I'm happy to report that Spike did not vomit and while and although Roxi still panted, it wasn't as severe and she was much calmer. I very much enjoy the scent of this product myself, so that makes it so much easier to use on the dogs.....and perhaps it will help MY road rage!”

– Carrie Bourlier, *Girard, OH*

“Even short trips tend to upset my Chihuahua, Archie. He pants and drools and barks the whole ride. I started using Travel Calm and the results

are really impressive. I rub the product on his belly and ears and he responds right away. I've noticed a marked reduction in the panting and drooling and he will oftentimes now just lie quietly on the back seat. A relief, since a panicked dog jumping in your lap while you are driving is a big safety hazard! I feel much more confident now about taking him with me on trips.”

– Karen Mead, *blogger, Verging On*
